Reply of Government.—Referred to the Local Fund Boards of Tumkur and Bangalore Districts for investigation and needful action in the usual course.

Subject No. 330
Transfer of the chattram from Bandihalli to Huliyurdurga.

Summary of discussion.—Bandihalli and six other villages were given in Inam to one Damodardas Sait by His Highness the late Krishna Raja Wadeyar for the maintenance of a chattram at Bandihalli and of other charities. But now there is no one to manage the said Sait's Estates as his legal heir. The old Mysore road which used to pass through Bandihalli has been abandoned. The road now used is the one from Huliyurdurga to Maddur. The transfer of the chattram from Bandihalli to Huliyurdurga would therefore be very useful to the people. Sanction to such transfer may be accorded.

Reply of Government.—The matter is under consideration in the Muzrai Department which will expedite its disposal.

Subject No. 331
A Police Inspector or Jamadar for Huliyurdurga.

Summary of discussion.—Huliyurdurga is at a distance of 14 miles from Kunigal and was formerly the head quarters of a taluk. There are thick forests not far from this place and dacoities and other heinous offences are of frequent occurrence, to prevent which the location of a Police Inspector or Jamadar thereat is desirable.

Reply of Government.—Referred to the Inspector General of Police.

Subject No. 332
The construction of feeders to the Amanikere tank at Huliyar.

Summary of discussion.—For nearly ten years past, the Amanikere tank has not filled and the raiyats have incurred great loss. If suitable feeders for the supply of water to the tank cannot be constructed, the bed of the tank (nearly 500 acres in extent) may be thrown open for cultivation, and all the wet lands under it converted into dry. As an alternative, one half of the assessment may be ordered to be collected until arrangements could be made to ensure the tank filling.

Reply of Government.—Referred to the Deputy Commissioner for inspection and needful action in due course.

Subject No. 333
Repairs to the Budihal tank.

Summary of discussion.—The question of repairing the Budihal tank has been under discussion for the last 4 or 5 years, but nothing has yet been done to provide it with good feeders. Early action may be ordered to be taken in the matter and until this is done, one half of the assessment on lands below the tank may be remitted.

Reply of Government.—Referred to the Deputy Commissioner and Public Works Department for further investigation.
